

Mathematical Mindsets

24 and 31 May 2016

8.45-10.15am at DC

Please plan to attend both sessions

Facilitated by Tanya Surawski

I hate Maths.

**Maths is
too hard
for me.**

**I'm not a
Maths person.**

Do you want to know how to change your child's thinking?

Come along to the parent information sessions about the impact of student thinking and approach to mathematics. The two consecutive sessions will provide different information, with the second following on from the first. Each will last approximately 1.5 hours and will include:

- hands on, fun and engaging experiences
- developing mindsets to support mathematics
- twelve take home strategies to support student attitude
- resources and websites to support your child

Please register online: <http://goo.gl/forms/9ZZuUUTU4C>. Only 24 places are available, so register soon!
